

procedural

Pascal Müller (CEO)

Short Bio

Pascal Müller is the author of the original CityEngine. He is one of the world top authorities in procedural modeling with a long track record including over 25 publications and numerous presentations all over the world (ACM Siggraph, Stanford University, Walt Disney, IMAGINA, etc.). Thanks to his scientific reputation, he has an extensive network in the entertainment and 3D modeling industry. Additionally, he has profound knowledge in digital content production thanks to his work as technical director at film production companies like Central Pictures and Bizzare Film Production.
